

# The Lesser White-Fronted Goose in flight (a)

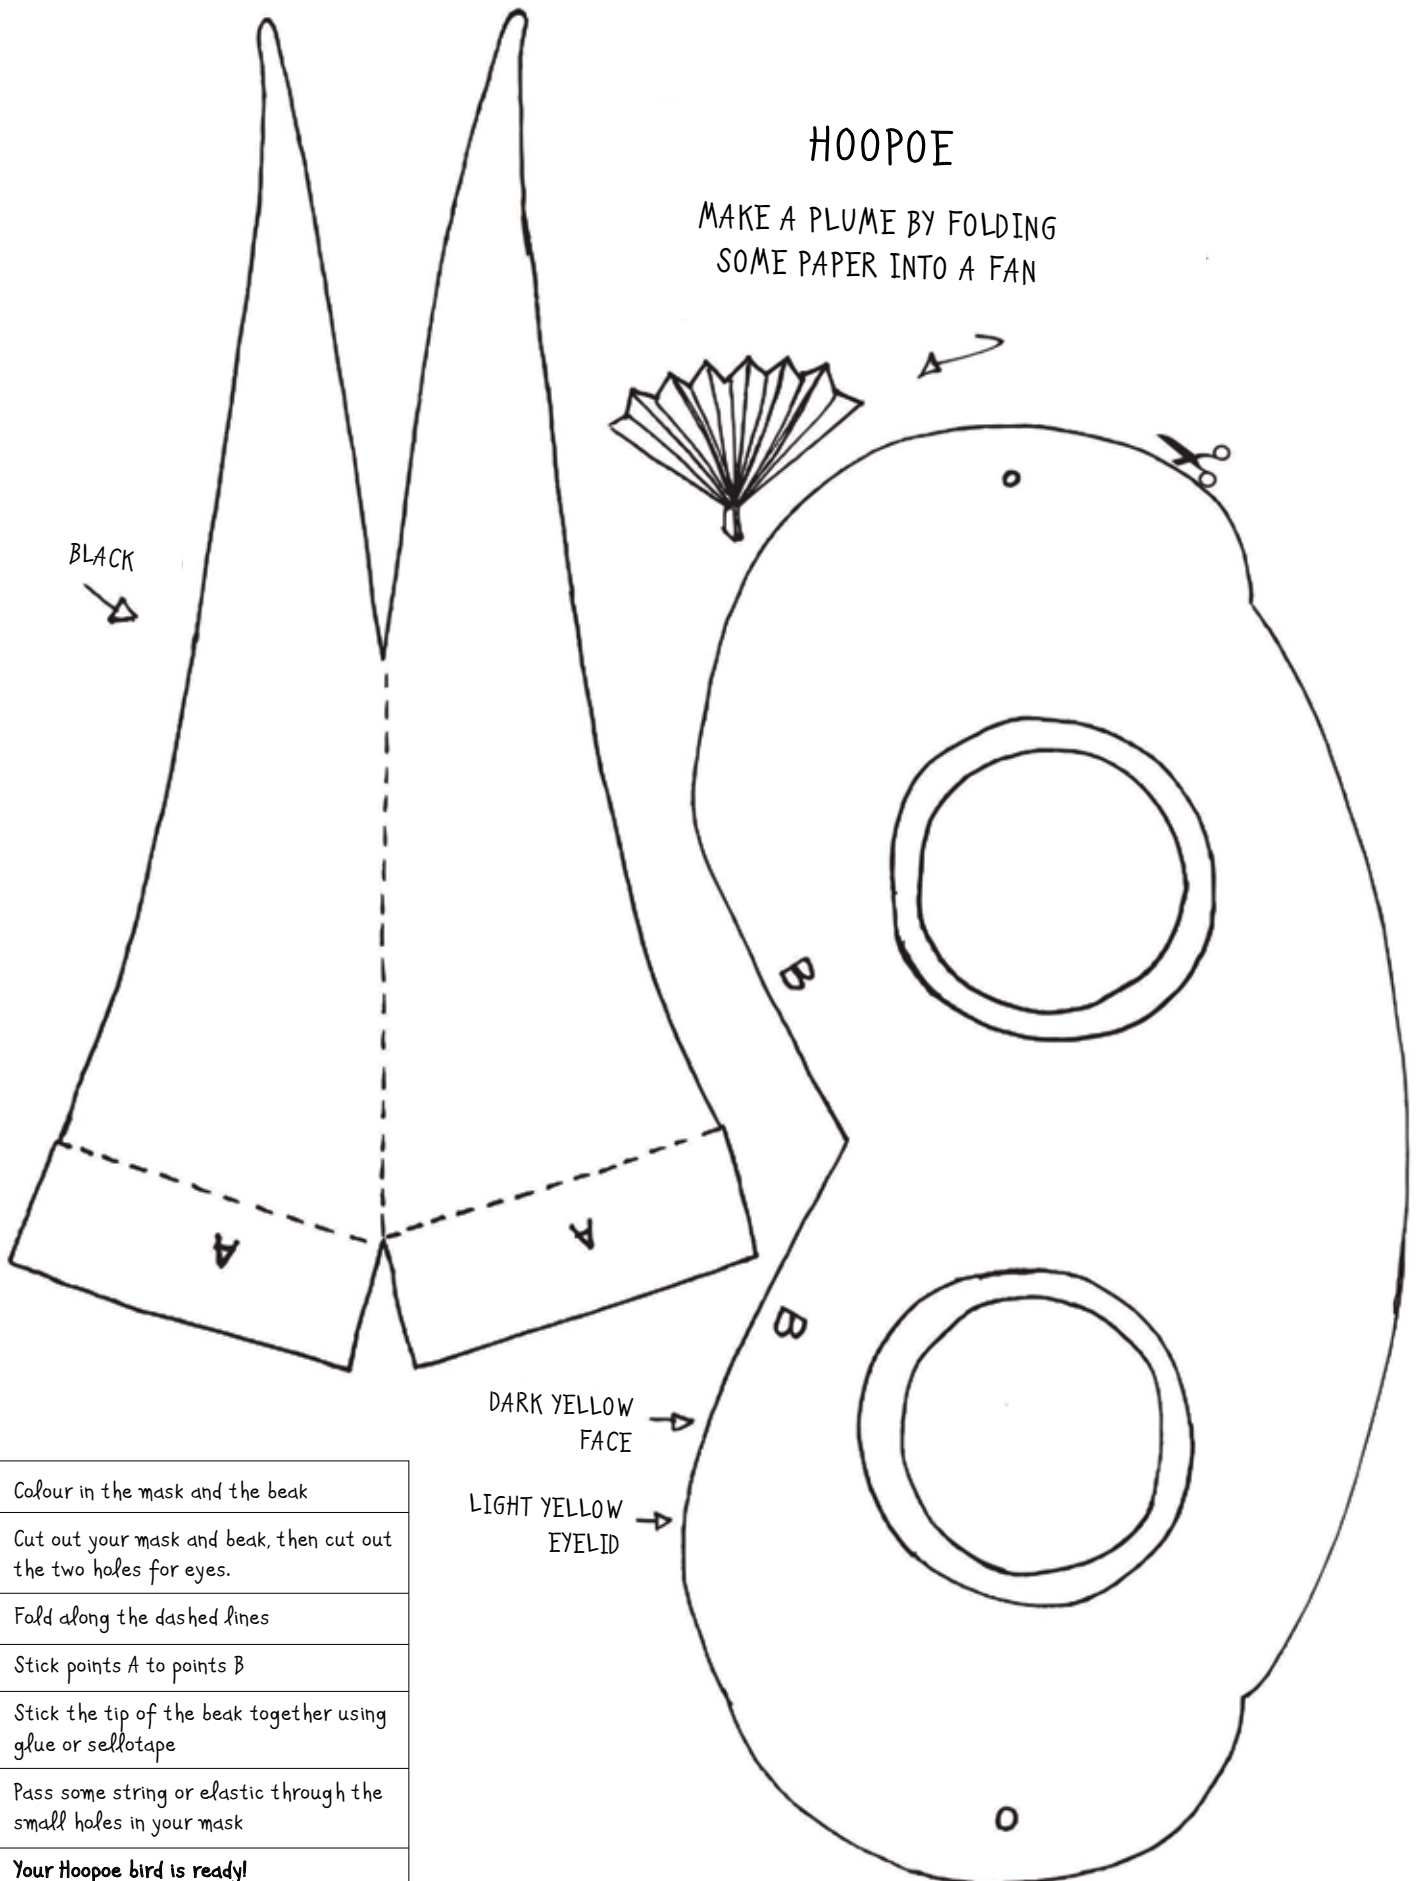

# The Lesser White-Fronted Goose in flight (β)

## HOOPOE

MAKE A PLUME BY FOLDING  
SOME PAPER INTO A FAN

Colour in the mask and the beak

Cut out your mask and beak, then cut out the two holes for eyes.

Fold along the dashed lines

Stick points A to points B

Stick the tip of the beak together using glue or sellotape

Pass some string or elastic through the small holes in your mask

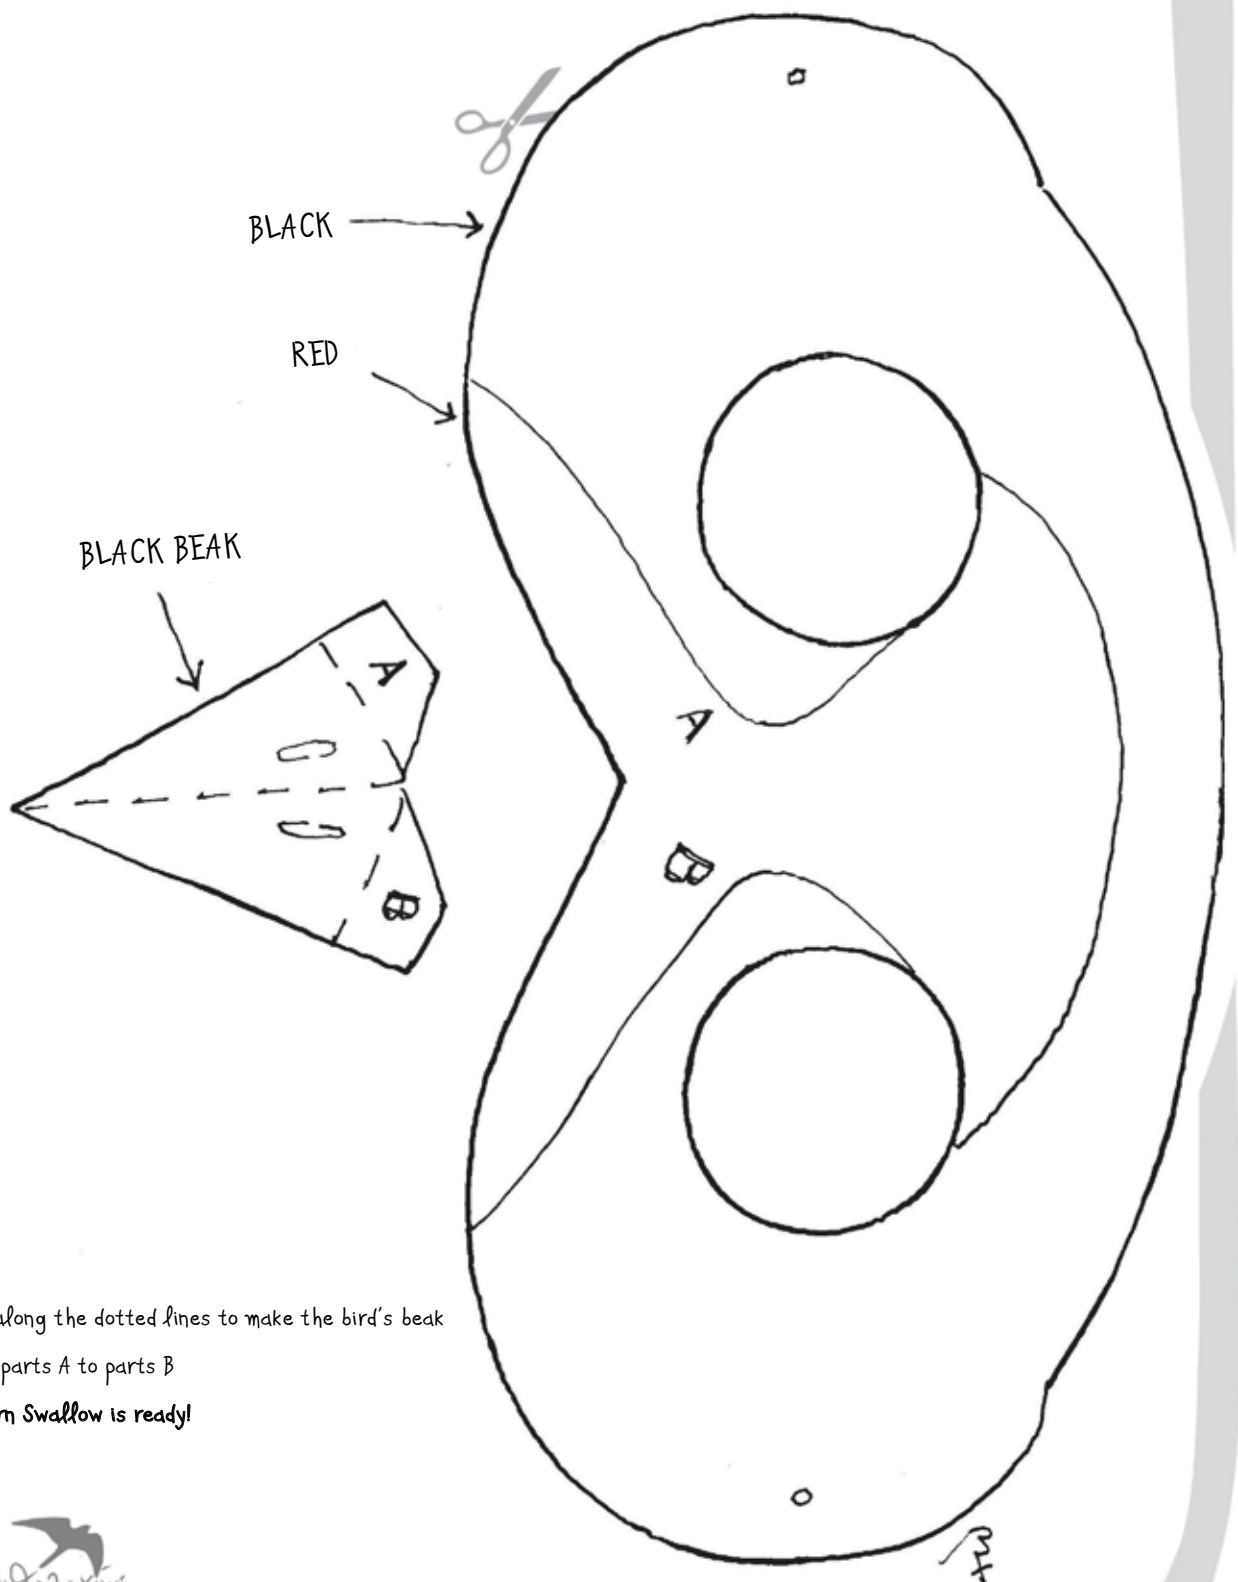

**Your Hoopoe bird is ready!**

## Barn Swallow Mask

### Barn Swallow

I fly non-stop, eating flies and mosquitoes. I build my nest with mud under a roof or a balcony.

- Fold along the dotted lines to make the bird's beak
- Stick parts A to parts B

Your Barn Swallow is ready!
